Email	matdoc77@gmail.com info@kneedoc.uk	ICO	ZA536779
Website	www.KneeDoc.uk	Indemnity	Scottvale (medico-legal)
Nationality	British, German		

I am a Consultant Trauma and Orthopaedic Surgeon at York and Scarborough Teaching Hospitals NHS Foundation Trust and a specialist knee surgeon, dual fellowship-trained in soft tissue knee surgery and lower limb arthroplasty at Wrightington Hospital. My practice covers both soft tissue knee surgery and knee arthroplasty, alongside private practice at Nuffield Health York Hospital and Clifton Park Hospital (Ramsay Health), York.

I regularly manage athletes from a broad range of sports. My procedures include primary and revision ACL reconstruction, multi-ligament knee reconstruction, meniscal repair, cartilage procedures and extensor mechanism allograft transplantation, with the aim of returning patients to sport.

For early arthritis, I offer biological joint injections, cartilage procedures and osteotomy. For advanced arthritis, my philosophy is to replace only the diseased part of the knee where possible; I perform partial, patellofemoral and total knee replacements.

I have prepared medico-legal reports since 2019 and have completed over 750 reports in personal injury and clinical negligence claims.

Qualifications

01 MFSEM (UK)
May 2022
Sport and Exercise Medicine Diploma, Royal College of Surgeons of Edinburgh

02 CUBS
Oct 2021
Cardiff University Law School – Bond Solon Civil Expert Certificate

03 FHEA
Mar 2021
Fellow of the Higher Education Academy

04 MFSTEd
Feb 2021
Diploma of the RCS Edinburgh, Member of the Faculty of Surgical Trainers

05 MAcadMEd
Feb 2021
Member of the Academy of Medical Educators

06 ATLS – Instructor (past)
Nov 2020
Royal College of Surgeons of England

07 PG Cert (Med Edu)
Aug 2020
Postgraduate Certificate in Medical Education, Edge Hill University

08 CCT (Tr & Orth)
Feb 2020
Certificate of Completion of Training, on the Specialist Register for Tr & Orth

09 PG Leadership Module
Aug 2019
Medical Leadership Module, Edge Hill University

10 FRCS (Tr & Orth)
Nov 2018
Fellow of the Royal College of Surgeons of England

11 SICOT Diploma Exam
Oct 2018
Diploma of the Société Internationale de Chirurgie Orthopédique et de Traumatologie

12 EBOT Fellowship Exam
Oct 2018
Fellow of the European Board of Orthopaedics and Traumatology

13 MSc Musculoskeletal Science with Distinction
Nov 2016
University College London and Royal National Orthopaedic Hospital

14 ALS – Instructor
Dec 2011
Resuscitation Council UK

15 MRCS
May 2011
Member of the Royal College of Surgeons of England

16 MD
Dec 2006
Doctor of Medicine, Medical University of Graz and Vienna, Austria. Six-year doctoral programme

Current Employment

CONSULTANT TRAUMA & ORTHOPAEDIC SURGEON

SPECIALIST KNEE SURGEON

YORK AND SCARBOROUGH TEACHING HOSPITALS NHS FOUNDATION TRUST
SINCE MARCH 2022

ELECTIVE

EXCLUSIVELY KNEE SURGICAL PRACTICE

- Arthroscopy, meniscal and chondral surgery
- Soft tissue knee and multi-ligament knee reconstruction
- Cartilage procedures
- Extensor mechanism allograft transplantation
- Adolescent and young adult knee surgery
- Cruciate (ACL, PCL) and collateral ligament surgery
- Osteotomy around the knee
- Patellofemoral disorders
- Unicompartmental and total knee replacement

- Established and developed the acute knee and soft tissue knee service on the East Coast and in York.
- Contribution to enhanced recovery: average inpatient length of stay for my arthroplasties was 29 hours in 2022–2023.
- Elective operating: theatre list planning with the admissions team, daily inpatient ward rounds, facilitating elective admissions, efficient patient flow and safe, timely discharge.
- Outpatient clinics: new referrals and follow-ups, appropriate planning and listing of patients for surgery.
- Contribution to the complex knee MDT with specialist MSK radiologists.
- Training registrars and junior doctors in all aspects of knee surgery, providing feedback and advice.

TRAUMA

GENERAL ADULT AND PAEDIATRIC TRAUMA (UPPER AND LOWER LIMB)

- Consultant-level trauma service, 1 in 10 on-call including nights and weekends.
- Acute knee clinics: assessing, investigating and managing traumatic knee injuries; regular fracture clinics.
- Leading trauma lists, including general upper and lower limb trauma, specialist knee trauma and periprosthetic fracture management.
- Working with the trauma coordinator to ensure efficient trauma patient flow.

LEADERSHIP, QI & TEACHING

- Major Trauma Lead for the East Coast (Scarborough, 2022–2023).
- Regular QI activity, audit and contribution to research; audit and clinical governance meetings.
- Various roles as clinical educator; educational and clinical supervisor for registrars and junior doctors.

PRIVATE PRACTICE

Clifton Park Hospital (Ramsay Health), York – since September 2023

Nuffield Health York Hospital

MEDICO-LEGAL

MEDICO-LEGAL EXPERT – SINCE 2019

- Over 750 medico-legal reports in personal injury (including road traffic accidents) and clinical negligence claims.
- Clinical negligence: breach of duty and causation reports, particularly in knee surgery, knee trauma and orthopaedic care.
- Personal injury: condition and prognosis, and causation reports; screening reports.
- Claimant and defendant instructions; single joint expert. Court attendance as an expert witness.
- Reports independent, balanced and evidence-based, prepared in accordance with CPR Part 35; normally completed within 6 weeks of examination.
- Training: Cardiff University – Bond Solon Civil Expert Certificate; Bond Solon Clinical Negligence Essentials; BOA Law for Orthopaedic Surgeons.
- Examinations at Nuffield Health York Hospital; London and Manchester by arrangement. Medico-legal indemnity with Scottvale; ICO registration ZA536779. Instructions via info@kneedoc.uk.

Fellowship & Subspecialty Training

Post-CCT Fellowship – Soft Tissue Knee Surgery — Aug 2020 – Feb 2022
Wrightington Hospital
Wrightington is a high-volume tertiary referral centre, named among the top 15 specialist orthopaedic hospitals in the world. I worked with Mr Gilbert, Mr Coupe, Mr Sales and Mr Barton and trained in all aspects of soft tissue knee surgery, including meniscal, chondral, cruciate and collateral ligament surgery; management of knee arthritis in young patients; unicompartmental knee replacement; osteotomy around the knee; and patellofemoral pathology, including complex revision surgery using allografts. I was trained in fresh osteochondral transplant, meniscal allograft transplant and multi-ligament knee surgery.

Post-CCT Fellowship – Lower Limb Arthroplasty — Feb 2020 – Aug 2020
Wrightington Hospital
Worked with Mr Mohammed and Mr Divecha and trained in all aspects of TKR and THR, including routine and complex primary arthroplasty and hip and knee arthroscopy, with exposure to revision arthroplasty and tumour surgery.

ST8 Specialty Registrar – Lower Limb Arthroplasty, Trauma — Aug 2019 – Feb 2020
Wrightington Hospital, Mersey Deanery · Prof V Raut, Mr A Rajpura
Senior registrar placement focused on primary and revision lower limb arthroplasty; middle-grade on-call with regular trauma lists.

ST8 Specialty Registrar – Lower Limb Arthroplasty, Soft Tissue Knee, Trauma — Feb 2019 – Aug 2019
St Helens & Whiston Hospital, Mersey Deanery · Mr M Cartwright-Terry
Busy DGH practice including primary TKR, THR and soft tissue knee surgery; registrar on-call with regular trauma lists.

ST7 Specialty Registrar – Elective Knee, Soft Tissue Knee, Trauma — Aug 2018 – Feb 2019
Royal Liverpool University Hospital, Mersey Deanery · Mrs J Banks, Mr A Santini
Advanced training post in elective knee surgery at a tertiary university teaching hospital, focused on soft tissue knee surgery and primary and revision knee arthroplasty; registrar on-call at a major trauma centre, including polytrauma and tertiary referrals.

ST7 Specialty Registrar – Paediatric Orthopaedics — Feb 2018 – Aug 2018
Alder Hey Children's Hospital, Mersey Deanery · Mr C Bruce, Mr L James

ST6 Specialty Registrar – Limb Reconstruction, Foot & Ankle, Trauma — Aug 2017 – Feb 2018
St Helens & Whiston Hospital, Mersey Deanery · Mr K Saldanha

ST6 Specialty Registrar – Lower Limb Trauma, Major Trauma — Feb 2017 – Aug 2017
Royal Liverpool University Hospital, Mersey Deanery · Mr B Narayan, Mr S Kalra, Mrs J Banks
Advanced lower limb trauma post including major trauma, polytrauma and tertiary referrals; trained in the management of periarticular fractures of the knee.

ST5 Specialty Registrar – Major Trauma, Lower Limb Arthroplasty — Aug 2016 – Feb 2017
Aintree University Hospital, Mersey Deanery · Mr J Fountain, Mr P Carter
Primary and revision TKR and THR, including complex arthroplasty, periprosthetic fracture and infected revision arthroplasty; registrar on-call at a major trauma centre.

ST5 Specialty Registrar – Lower Limb Arthroplasty, Soft Tissue Knee, Trauma — Feb 2016 – Aug 2016
Arrowe Park Hospital, Mersey Deanery · Mr J Stamer
Primary TKR, THR and soft tissue knee surgery in a busy DGH; registrar on-call with regular trauma lists.

ST4 Specialty Registrar – Shoulder & Elbow, Trauma — Nov 2015 – Feb 2016
Warrington Hospital, Mersey Deanery · Mr H Casserly

ST4 Specialty Registrar – Spine, Trauma — Aug 2015 – Nov 2015
Warrington Hospital, Mersey Deanery · Mr I Shackleford

ST4 Specialty Registrar – Major Trauma, Hand & Wrist — Feb 2015 – Aug 2015
Royal Liverpool University Hospital, Mersey Deanery · Mr G Cheung, Mr D Brown

Specialty Doctor (LAS) – Lower Limb Arthroplasty, Trauma — Aug 2014 – Feb 2015
Leighton Hospital, Crewe, Mersey Deanery · Mr D Pegg

ST3 (LAT) Specialty Registrar – Lower Limb Arthroplasty, Trauma — Feb 2014 – Aug 2014
Royal Derby Hospital, East Midlands Deanery · Mr J Rowles

ST3 (LAT) Specialty Registrar – Foot & Ankle — Aug 2013 – Feb 2014
Nottingham University Hospitals, East Midlands Deanery · Prof B Scammell

Prizes & Awards

BOA Scholarship Sep 2017

Scholarship to attend the FORTE Summer School in Faro, Portugal.

1st Prize – Winner of RLUH T&O Audit Prize Jul 2017

My Theatre Efficiency Audit was the winning project at this competition.

1st Prize – Winner of Mersey Regional Audit Prize Jun 2017

My VTE Audit with completed cycle was the winning project.

Master of Science with Distinction Sep 2016

Awarded by UCL / RNOH with distinction in the final classification.

Dean's List – Medical Sciences, UCL / RNOH Nov 2016

The Dean's List is a commendation to students of excellence who are deemed to excel in their chosen field and deserve recognition for their achievements.

Braithwaite Award Jul 2016

First recipient of this prestigious award for Orthopaedic Registrars in the Mersey Region.

Nominated for the Best Paper Award Nov 2014

35th SICOT Conference, Rio de Janeiro, Brazil. Achieved top 10 out of over 1,000 papers.

Nominated for the Best Poster Award Nov 2012

33rd SICOT Conference, Dubai, UAE. Achieved top 10 out of over 1,000 papers.

Thesis

20-Year Survival of Cemented Anatomical Graduated Component Total Knee Replacement with Extensive PROMs and Satisfaction Analysis

Submitted as part of my master's degree at UCL and RNOH, Stanmore. MSc degree completed with distinction and nominated for the Dean's List. Multiple international presentations resulted from this research.

Jul 2016

Quality Improvement

Established a Soft Tissue Knee Service on the East Coast
York and Scarborough Teaching Hospitals

I am leading the development of the acute knee and soft tissue knee service on the East Coast. This involved setting up the service virtually from scratch and liaising with orthotics, radiologists, physiotherapists, theatre team and industry, MDT meetings, staff teaching, and acquisition of specialist equipment. I am leading the development of the arthroscopy equipment.

Day-case surgery for unicompartmental knee replacements (UKR)
Wrightington Hospital

I was the lead investigator. We audited the perioperative practice of UKR and identified significant potential in safe reduction of length of stay and improvement of patients' experience. I led the development of a day-case surgery protocol for UKR, resulting in a significant decrease in inpatient stay and cost-saving for the Trust.

Consenting in TKR
Wrightington Hospital

I was the lead investigator and audited the use of generic consent forms against BOA-endorsed procedure-specific forms on orthoconsent.com. Too many risks and complications were missing, so we introduced pre-printed consent forms and presented the results at international level.

VTE assessment following lower limb injury
Royal Liverpool University Hospital

I was the lead investigator. Completion of VTE assessment in fracture clinic increased from 33% to 87% with staff education and printed information material. First prize in regional audit competition.

Virtual Clinic (VC) Follow-up After Joint Arthroplasty
Aintree University Hospital

I was the lead investigator. We completed an audit cycle on safety, patient satisfaction and cost efficiency of VC follow-up after TKR and THR. VC is a safe and cost-effective option, with cost savings of over £10,000 per year per consultant surgeon. Podium presentation at BOA.

Leadership

I established and developed the soft tissue knee service in Scarborough, involving liaison with orthotics, MSK radiologists, physiotherapists, theatre team, industry, MDT meetings, staff teaching and acquisition of specialist equipment. I am now based at York District Hospital and continue developing the knee service with the same multidisciplinary approach.

I was the Major Trauma Lead for the East Coast (2022–2023), chairing local multidisciplinary meetings, contributing to the development of the regional major trauma service, organising educational courses and managing our TARN data.

I am Past President-Elect of FORTE and a former member of its executive committee. FORTE is a large international educational organisation representing orthopaedic surgeons in training across Europe; our focus was organising educational meetings and travelling fellowships across Europe.

Whilst at Wrightington, I led the development of a day-case surgery protocol for unicompartmental knee replacements, leading to a significant reduction in inpatient stay and cost-savings for the Trust.

At Broadgreen Hospital, I was responsible for producing both the on-call and day-to-day rotas, covering elective clinics and theatres and the emergency rota for the wards.

As clinical lead, I was responsible for introducing AI technology in clinical documentation (Heidi) in our department.

I introduced the routine use of allograft ligaments in our Trust and have developed this further, and I have developed cartilage procedures within the Trust.

I was involved in setting up the GEKO trial, a radiology/orthopaedic research project; the study was initiated but did not proceed to recruitment.

In 2025 I joined the Match Day Medical Team for the Women's Rugby World Cup 2025 in York.

At Aintree Hospital, I improved virtual clinic follow-up for lower limb arthroplasty patients, giving safe and effective care while saving the Trust significant resources.

Leadership Courses

- Postgraduate Medical Leadership Module, Edge Hill University
- Leadership and Management Course, Warwick Medical School
- Roles & Responsibilities of a Hospital Consultant, Royal Bolton Hospital
- Edward Jenner Programme, NHS Leadership Academy
- ORUK – How to Set Up a Private Practice (2026)
- Medico-legal courses with Cardiff University, Bond Solon, Slater & Gordon and Specialist Info

Teaching

I am Educational and Clinical Supervisor for junior doctors and registrars in York and Scarborough. I supervise and mentor junior colleagues, including assessment and feedback for learners of different backgrounds and levels.

As a consultant, and previously during my training, I operate on both trauma and elective lists, and use these opportunities to teach junior members of my team.

I taught as an ATLS Instructor from 2020, which enhanced my knowledge of and passion for acute trauma care. Previously, I was an ALS Instructor, completed the General Instructor Course and was a member of ALS faculty.

I am faculty on the Wrightington Basic Science Viva Course (January 2024, 2025 and 2026; invited for 2027) and have a standing invitation to examine on the Wrightington FRCS (Tr & Orth) Viva Course. In June 2026 I spoke at the Clifton Park Hospital Summer Sports Injury Symposium.

I am a Fellow of the Higher Education Academy (FHEA) and hold the Diploma of Member of the Faculty of Surgical Trainers (MFSTEd, RCS Edinburgh), demonstrating my commitment to professionalism in teaching and learning.

I have been a guest lecturer at Edge Hill University for MCh students and an OSCE examiner for medical students at the University of Liverpool. I am a peer reviewer for *Injury*, *BMJ Case Reports* and Dove Press, and an Associate Editorial Board Member of *The Open Orthopaedics Journal*.

I was involved in the TILS course, a trauma course for nurses, at York and Scarborough Teaching Hospitals (2023).

Quality Improvement

Service development

Soft tissue knee service on the East Coast 2022 –
York and Scarborough Teaching Hospitals
Leading the development of the acute knee and soft tissue knee service on the East Coast, set up from scratch: liaison with orthotics, radiologists, physiotherapists, theatre team and industry; MDT meetings; staff teaching; acquisition of specialist and arthroscopy equipment.

Day-case surgery for unicompartmental knee replacement
Wrightington Hospital
Lead investigator. Audited perioperative UKR practice and identified scope to safely reduce length of stay and improve patient experience. Led development of a day-case protocol, resulting in a significant decrease in inpatient stay and cost-saving for the Trust.

Completed audit cycles

Consenting in TKR – Wrightington Hospital Feb 2020
Lead investigator. Audited generic consent forms against BOA-endorsed procedure-specific forms (orthoconsent.com); too many risks were missing, so pre-printed consent forms were introduced. International podium presentation.

Supracondylar elbow fractures – Alder Hey Children's Hospital Aug 2018
Lead investigator. Audited documentation of neurovascular injuries against BOAST 11; introduced LUFA forms and documentation on consultant-led ward rounds. Successfully re-audited.

VTE assessment following lower limb injury – Royal Liverpool University Hospital Jun 2017
Lead investigator. Completion of VTE assessment in fracture clinic increased from 33% to 87% with staff education and printed information. First prize in regional audit competition.

Virtual clinic follow-up after joint arthroplasty – Aintree University Hospital Jan 2017
Lead investigator. Completed audit cycle on safety, patient satisfaction and cost efficiency of virtual follow-up after TKR and THR, compared with published literature. Virtual clinic was safe and cost-effective, with savings of over £10,000 per year per consultant surgeon. Podium presentation at BOA.

Consenting in TKR – Royal Derby Hospital Jul 2014
Lead investigator. Introduced patient information leaflets and pre-printed procedure-specific consent forms. International podium presentation.

Surgical site infection – Macclesfield District General Hospital Dec 2013
Lead investigator. Initial audit and re-audit showed no positive microbiology results indicating deep infection; current preventive measures continued.

Orthopaedic audits

CHIP 2 (national audit, vitamin D and COVID-19 mortality in hip fracture), Wrightington – initiated, led and managed locally Jan 2021

CHIP 1 (regional audit, COVID-19 mortality in hip fracture), Wrightington – initiated, led and managed locally; international presentations and publication Jun 2020

Consenting in TKR, Wrightington – initiated, led, managed and presented; procedure-specific consent forms introduced Sep 2019

PATHS (national audit, tranexamic acid in hip fracture surgery), Whiston – managed locally, data collection Jun 2018

Revision surgery for bisphosphonate-related subtrochanteric non-union, Whiston – initiated, led, managed and presented; publication Feb 2018

Theatre efficiency in trauma surgery, Royal Liverpool – introduced the "Golden Patient"; significant improvement in efficiency Jun 2017

Patient warming in elective shoulder surgery, Warrington – initiated, led, managed and presented Feb 2016

Cost-effectiveness of cuff repair using single/dual row anchors, Warrington – literature search, data collection, analysis, presentation Dec 2015

Collagenase injection in Dupuytren's contracture, Royal Liverpool – initiated, led, managed and presented	Mar 2015
Management of femur fractures in children, Leighton Hospital – initiated, led, managed and presented; international presentation	Feb 2015
Consenting in TKR, Nottingham University Hospitals – initiated, led, managed and presented	May 2014
Vanguard TKR, 7-year results and patient satisfaction, Kettering – initiated, led and managed; international presentation	Feb 2014
Exeter uncemented THR, Kettering – data collection and analysis; international presentation	Jan 2014
Consenting in TKR, Kettering – initiated, led, managed and presented; international presentation	Jan 2014
TKR and UKR: 1 to 10-year outcome, survival and satisfaction, Macclesfield – initiated, led, managed and presented	Dec 2013
Oxford UKR – 10 to 20 years, Macclesfield – initiated, led, managed and presented; international presentation	Feb 2013
TKR – 10 to 20-year survival and patient satisfaction, Macclesfield – initiated, led, managed and presented	Feb 2013
Morbidity & mortality, Kettering – initiated, led, managed and presented	Sep 2012
MOJE – MTPJ replacement, Royal Liverpool – initiated, led, managed and presented	Jan 2012
ACCORD plate and cable system, Leighton Hospital – initiated, led, managed and presented	Sep 2011
Morbidity & mortality, Leighton Hospital – initiated, led, managed and presented	Jun 2011
Surgical site infection 2010, Macclesfield – initiated, led, managed and presented	Dec 2010
National audit of falls and bone health in older people, Macclesfield – data collection	Oct 2010
Knee injuries, GP and A&E referrals, Waterloo House Surgery, Millom – initiated, led, managed and presented	Nov 2009
ACL reconstruction, University Hospitals of Morecambe Bay – initiated, led, managed and presented	Apr 2009
IM nailing of humerus fractures, University Hospitals of Morecambe Bay – initiated, led, managed and presented	Feb 2009
Justification for the use of reinfusion drains, University Hospitals of Morecambe Bay – data collection and analysis	Aug 2008
Consent forms for total knee replacement, University Hospitals of Morecambe Bay – initiated, led, managed and presented	Aug 2008

Non-orthopaedic audits – University Hospitals of Morecambe Bay

Permanent pacemakers – initiated, led, managed and presented	Jun 2009
Upper GI bleed – initiated, led, managed and presented	May 2009
Implantable loop recorders – initiated, led, managed and presented	Apr 2009

Quality measures in endoscopy – initiated, led, managed and presented Jan 2009

Leadership

I am a substantive Consultant Trauma and Orthopaedic Surgeon at York and Scarborough Teaching Hospitals NHS Foundation Trust and lead of the elective knee team, managing a large number of trauma and elective referrals.

I established and developed the soft tissue knee service in Scarborough, involving liaison with orthotics, radiologists, physiotherapists, theatre team and industry, MDT meetings, staff teaching and acquisition of specialist equipment. I am now based at York District Hospital and continue to develop the knee service with the same multidisciplinary approach.

I was the Major Trauma Lead for the East Coast (2022–2023), chairing local multidisciplinary meetings, contributing to the development of the regional major trauma service, organising educational courses and monitoring and managing the local TARN data.

I contributed to enhanced recovery development; the average length of stay for my arthroplasties (TKR/UKR) was 29 hours in 2022–2023.

In 2025 I joined the Match Day Medical Team for the Women's Rugby World Cup 2025 in York as a trauma and orthopaedic surgeon. As clinical lead, I was responsible for introducing AI technology in clinical documentation (Heidi) in our department. I introduced the routine use of allograft ligaments in our Trust and have developed this further, and I have developed cartilage procedures within the Trust. I was involved in setting up the GEKO trial, a radiology/orthopaedic research project (the study was initiated but did not proceed to recruitment). I also developed a PKB app pathway and patient feedback video with our IT department, and sat on a consultant interview panel in Scarborough (2023).

I am Past President-Elect of FORTE (Federation of Orthopaedic and Trauma Trainees in Europe) and served on its executive committee (2021–2022), organising educational meetings (Summit in Amsterdam, Summer School in Athens) and travelling fellowships across Europe. In 2020 I was President of the FORTE Fiscal Council, the independent body overseeing its administrative and financial governance.

At Wrightington I led the development of a cross-departmental day-case protocol for unicompartmental knee replacement, improved consenting practice for knee arthroplasty and helped set up an ambulatory PRP injection clinic, learning innovative ways to manage patient flow during the COVID-19 pandemic.

Earlier roles: at Broadgreen Hospital I produced the on-call and day-to-day rotas covering elective clinics, theatres and the emergency ward rota; at Whiston Hospital I was trauma registrar, supervising juniors and prioritising trauma lists; at Aintree I improved virtual clinic follow-up for arthroplasty patients; at Leighton Hospital I examined cost-saving options for paediatric femoral fractures; at the Royal Liverpool I conducted a cost-effectiveness study of collagenase injection for Dupuytren's contracture; and at Warrington I organised suturing courses for junior doctors and medical students.

Leadership training includes the Medical Leadership Module (Edge Hill University), the Edward Jenner Programme (NHS Leadership Academy), Leadership and Management (Warwick Medical School), Roles and Responsibilities of a Hospital Consultant (Royal Bolton Hospital), and medico-legal training with Cardiff University, Bond Solon, Slater & Gordon and Specialist Info.

Teaching

Course faculty

- TILS – trauma course for nurses, York and Scarborough Teaching Hospitals (2023).
- Faculty, Wrightington Basic Science Viva Course – January 2024, 2025 and 2026; invited for January 2027.
- Speaker, Clifton Park Hospital Summer Sports Injury Symposium, Easingwold – June 2026: "Knee Sports Injuries in Summer Field Sports".
- EFORT Congress, Lisbon (2022): chaired the FORTE session as President-Elect, coordinated a teaching session on hip pathologies for European trainees and lectured on neck of femur fractures.
- Teaching session on extensor mechanism injuries for Greek orthopaedic residents (May 2022).
- Teaching for local GPs and physiotherapists on soft tissue knee conditions, and teaching sessions on knee injury management and prevention.
- Past ATLS Instructor (Royal College of Surgeons of England), from 2020.
- Faculty member, Wrightington FRCS (Tr & Orth) Viva Course since 2020.
- ALS Instructor since 2010 (Resuscitation Council UK); multiple ALS courses as faculty.
- Course convenor for two suturing courses for junior doctors and medical students, Warrington Hospital (2015–2016), including course development, teaching materials and assessment tool.

University teaching

- Guest lecturer on orthopaedic topics for MCh students, Edge Hill University.
- OSCE examiner for medical students and LOCAS teaching for fourth-year students, University of Liverpool.
- Informal dissertation supervision and supervision of academic work (audits and publications) of MCh students, Edge Hill University / Wrightington Hospital.

Workplace-based supervision

- Educational and clinical supervisor for junior doctors and registrars in York and Scarborough; assessment and feedback for learners of different backgrounds and levels.
- Supervising colleagues in ward, clinic and theatre; workplace-based assessments on ISCP (MSF, CBD, CEX); mentoring international medical graduates.
- Intra-departmental soft tissue knee teaching, six lectures per year.

Scholarship and editorial roles

- Postgraduate Certificate in Medical Education, Edge Hill University (2020); FHEA (2021); MFSTEd, RCS Edinburgh (2021); MAcadMEd (2021).
- Peer reviewer for *Injury*, *BMJ Case Reports* and Dove Press; Associate Editorial Board Member, *The Open Orthopaedics Journal*.
- Contributor to the COVI-ORTH UK collaborative study on the impact of COVID-19 on orthopaedic training (*The Surgeon*, 2021).
- Speaker at national and international meetings in Europe, Asia, Africa, and South and North America.

Courses

Special interest courses

Surgical visit to Mr Tim Spalding (meniscal allograft transplantation), London	1 day	Sep 2026
Surgical visit to Prof Martyn Snow (meniscal allograft transplantation)	1 day	Aug 2026
International Kids Knee Conference, Sheffield, UK	2 days	Jun 2026

Feedback

What colleagues are saying

"He is one of the finest orthopaedic surgeons I have had the privilege to work alongside."

"He has a calm approach and is always kind and considerate to all. He appears to remain calm under pressure, which has a good effect on the whole team."

"Happy to go the extra mile for patients and team."

"Very knowledgeable, approachable and charismatic."

"He is extremely hard-working, reliable, trustworthy and enthusiastic in his job. He is a great team player and always listens to theatre staff concerns. He has excellent communication skills with patients and staff. He is a caring and extremely polite doctor, always willing to help. He knows his limitations and asks appropriately for help and is always willing to learn."

"Enthusiastic and keen to learn, picks up new surgical techniques well and open to suggestions for refining current skills. Cheerful, friendly demeanour and very popular member of the MDT. Demonstrated good leadership and managerial skills in organising the lower limb rota. He is very motivated and a pleasure to work with. He has the skills and motivation to become a very successful knee surgeon."

"His professionalism is beyond reproach, as is his work ethic. He has an easy manner, which makes him popular with staff and patients alike."
